

SUBJECT INDEX TO VOLUME 23 (1984)—ONCOLOGY

Experimental oncology

- Early transient accumulation of methotrexate in the cerebrospinal fluid of rabbits after treatment with methotrexate and roentgen rays 69
- Vascular endothelium as the vulnerable element in tumours 217

Experimental radiation biology

- Intracellular recording of potential oscillations in ciliated cells exposed to ionizing radiation 49
- Influence of ⁹⁰Sr, adult thymectomy and antilymphocyte globulin on T-cells in mouse peripheral blood 61
- Effects of S-2(3-aminopropylamino) ethylphosphorothioic acid (WR-2721) on the sensitivity of mouse spermatogonia A to radiation 65
- Early transient accumulation of methotrexate in the cerebrospinal fluid of rabbits after treatment with methotrexate and roentgen rays 69
- Combination of misonidazole and lipoic acid on the radiation sensitivity of bacillus megaterium spores 75
- Formula to estimate the thermal enhancement ratio of a single simultaneous hyperthermia and radiation treatment 135
- Vascular endothelium as the vulnerable element in tumours 217
- Effects of 16,16 dimethyl prostaglandin E₂ on irradiation damage of the small intestine 349
- Qualitative and quantitative effects on the morphology of the small intestine after multiple daily fractionation 353
- Ability of lithium to accelerate the recovery of granulopoiesis after subacute radiation injury 361
- The cGMP system in irradiated animals—Changes of cGMP content and activities of guanylate cyclase and cyclic nucleotide phosphodiesterase 367

Epidemiology and etiology

- Susceptibility to carcinogenic effects of irradiation—Relationship to age at time of exposure 141
- Occupational exposures as risk indicator of male bladder carcinoma in a predominantly rural area 147
- Occurrence of other malignancies in patients treated for basal cell carcinoma of the skin—A cohort study 227
- Completeness of the Swedish Cancer Register—Non-notified cancer cases on death certificates in 1978 305
- Intercurrent mortality of breast carcinoma patients—An investigation of 3857 cases from the Swedish Cancer Register 337
- Two different primary lung malignancies after a successful kidney transplantation 411
- Synchronous Hodgkin's disease in monozygotic twins 425

Pathology

- 24–36-chromosome clones in human malignancies—Cytogenetic interrelationships, clinical significance and patient age 91
- Hydatidiform mole in a Danish material—Morphology and cytogenetics—A preliminary communication 97
- Ploidy level of human breast carcinoma—Relation to histopathologic features and hormone receptor content 103
- Specimen radiography of bone tumours 119
- Testicular germ cell tumours in Denmark 239
- Malignant pilomatrixoma—Report of a case 429

Clinical oncology

Diagnostics, Symptomatology

- Kinetics of ²⁰¹Tl uptake in adenomas and well-differentiated carcinomas of the thyroid—A double isotope investigation with ⁹⁹Tc^m and ²⁰¹Tl 55
- Presenting symptoms and treatment delay in osteosarcoma and Ewing's sarcoma 159
- Experiences from the National Danish Hodgkin's Study Group (LYGRA) with respect to diagnosis, classification and treatment of Hodgkin's disease 163
- Gastric lymphomas—Clinical features, treatment and prognosis 193
- Testicular carcinoma in Denmark 1976–1980—Stage and selected clinical parameters at presentation 249

Prognostic factors, Tumour markers

- Tumour markers in colorectal carcinoma—An evaluation of carcinoembryonic antigen, tissue polypeptide antigen, placental alkaline phosphatase and pseudouridine 27
- Ploidy level of human breast carcinoma—Relation to histopathologic features and hormone receptor content 103
- Oestrogen receptor assay—False positive analysis? 109
- Gastric lymphomas—Clinical features, treatment and prognosis 193
- Prognostic factors in testicular germ cell tumours—Experience from 1058 consecutive cases 271
- Tumour markers in testicular germ cell tumours—Five-year experience from the DATECA Study 1976–1980 287
- Relationship between lymph node metastases and prognosis in patients irradiated for carcinoma of the uterine cervix 455

Surgery

- Low grade astrocytoma in children treated by surgery and radiation therapy 1
- Early glottic carcinoma (T1N0)—Results of irradiation with or without endoscopic microsurgery 15
- Soft tissue sarcomas in adults—Surgical, radiologic and cytotoxic treatment 169

SUBJECT INDEX TO VOLUME 23 (1984)—ONCOLOGY

Experimental oncology

- Early transient accumulation of methotrexate in the cerebrospinal fluid of rabbits after treatment with methotrexate and roentgen rays 69
- Vascular endothelium as the vulnerable element in tumours 217

Experimental radiation biology

- Intracellular recording of potential oscillations in ciliated cells exposed to ionizing radiation 49

- Testicular germ cell tumours in Denmark 239
- Malignant pilomatrixoma—Report of a case 429

Clinical oncology

Diagnostics, Symptomatology

- Kinetics of ²⁰¹Tl uptake in adenomas and well-differentiated carcinomas of the thyroid—A double isotope investigation with ⁹⁹Tc^m and ²⁰¹Tl 55
- Presenting symptoms and treatment delay in osteosarcoma and Ewing's sarcoma 159
- Experiences from the National Danish Hodgkin's Study Group (LYGRA) with respect to diagnosis, classification and treatment of Hodgkin's disease 163
- Gastric lymphomas—Clinical features, treatment and prognosis 193
- Testicular carcinoma in Denmark 1976–1980—Stage and selected clinical parameters at presentation 249

Prognostic factors, Tumour markers

- Tumour markers in colorectal carcinoma—An evaluation of carcinoembryonic antigen, tissue polypeptide antigen, placental alkaline phosphatase and pseudouridine 27
- Ploidy level of human breast carcinoma—Relation to histopathologic features and hormone receptor content 103
- Oestrogen receptor assay—False positive analysis? 109
- Gastric lymphomas—Clinical features, treatment and prognosis 193
- Prognostic factors in testicular germ cell tumours—Experience from 1058 consecutive cases 271
- Tumour markers in testicular germ cell tumours—Five-year experience from the DATECA Study 1976–1980 287
- Relationship between lymph node metastases and prognosis in patients irradiated for carcinoma of the uterine cervix 455

Surgery

- Low grade astrocytoma in children treated by surgery and radiation therapy 1
- Early glottic carcinoma (T1N0)—Results of irradiation with or without endoscopic microsurgery 15
- Soft tissue sarcomas in adults—Surgical, radiologic and cytotoxic treatment 169

- Malignant tumours of the paranasal sinuses and nasal cavity—A series of 180 patients 181
- Gastric lymphomas—Clinical features, treatment and prognosis 193
- Preoperative irradiation of malignant melanoma—A multifactorial statistical analysis of survival . . . 315
- Carcinoma of the larynx—Series of 410 patients treated primarily with ^{60}Co irradiation 321
- Oral carcinoma of the upper jaw—Results of radiation treatment 331
- Treatment of recurrent squamous cell carcinoma of the vulva 345
- Radiation therapy and surgery in the treatment of regional lymph nodes in squamous cell carcinoma of the vulva 433
- Stage I squamous cell carcinoma of the vulva . . . 443
- Radiation therapy, Clinical radiation biology*
- Low grade astrocytoma in children treated by surgery and radiation therapy 1
- Plasma amylase activity as a biochemical indicator of radiation injury to salivary glands 9
- Early glottic carcinoma (T1N0)—Results of irradiation with or without endoscopic microsurgery . . 15
- Role of radiation therapy in carcinoma of the hypopharynx 21
- Radiation management of squamous cell carcinoma of the bladder 37
- Delayed effect of radiation therapy with or without chemotherapy on ovarian function in women with Hodgkin's disease 43
- Small cell anaplastic carcinoma of the lung—The Aarhus experience 1976–1981 153
- Experience from the National Danish Hodgkin's Study Group (LYGRA) with respect to diagnosis, classification and treatment of Hodgkin's disease . 163
- Soft tissue sarcomas in adults—Surgical, radiologic and cytotoxic treatment 169
- Importance of age in management of retinoblastoma of the first eye 177
- Malignant tumours of the paranasal sinuses and nasal cavity—A series of 180 patients 181
- Gastric lymphomas—Clinical features, treatment and prognosis 193
- Impact of CT based treatment planning on radiation therapy of carcinoma of the bladder 199
- Carcinoma of the prostate limited to the pelvis—Treatment with curative radiation therapy 205
- Fractionated radiation therapy after Strandqvist . . 209
- Radiation therapy for brain metastases from malignant melanoma 231
- Non-seminomatous testicular germ cell tumours in Denmark 1976–1980—Results of treatment 255
- Testicular seminoma in Denmark 1976–1980—Results of treatment 263
- Non-seminomatous testicular germ cell tumours—Preliminary analysis of ongoing trials in the DA-TECA Study 295
- Preoperative irradiation of malignant melanoma—A multifactorial statistical analysis of survival . . . 315
- Carcinoma of the larynx—Series of 410 patients treated primarily with ^{60}Co irradiation 321
- Oral carcinoma of the upper jaw—Results of radiation treatment 331
- Treatment of recurrent squamous cell carcinoma of the vulva 345
- Respiratory function tests after mantle irradiation in patients with Hodgkin's disease 401
- Results of radiation therapy in carcinoma of the larynx 415
- Radiation therapy and surgery in the treatment of regional lymph nodes in squamous cell carcinoma of the vulva 433
- Stage I squamous cell carcinoma of the vulva . . . 443
- Radium needles implant in the treatment of extensive vaginal involvement from cervical carcinoma—A dosimetry appraisal 449
- Relationship between lymph node metastases and prognosis in patients irradiated for carcinoma of the uterine cervix 455
- The role of radiation therapy in the treatment of adenocarcinoma of the corpus uteri stage I—A ten year experience (1970–1979) 461
- Radiation injury*
- Plasma amylase activity as a biochemical indicator of radiation injury to salivary glands 9
- Intestinal damage and malabsorption after treatment for cervical carcinoma 33
- Delayed effect of radiation therapy with or without chemotherapy on ovarian function in women with Hodgkin's disease 43
- Respiratory function tests after mantle irradiation in patients with Hodgkin's disease 401
- Extensive late bone necrosis after postoperative orthovoltage irradiation of breast carcinoma—Report of a case 485
- Chemotherapy and hormonal therapy*
- Delayed effect of radiation therapy with or without chemotherapy on ovarian function in women with Hodgkin's disease 43
- Small cell anaplastic carcinoma of the lung—The Aarhus experience 1976–1981 153
- Experiences from the National Danish Hodgkin's Study Group (LYGRA) with respect to diagnosis, classification and treatment of Hodgkin's disease . 163
- Soft tissue sarcomas in adults—Surgical, radiologic and cytotoxic treatment 169
- Gastric lymphomas—Clinical features, treatment and prognosis 193
- Non-seminomatous testicular germ cell tumours in Denmark 1976–1980—Results of treatment 255
- Testicular seminoma in Denmark 1976–1980—Results of treatment 263
- Non-seminomatous testicular germ cell tumours—Preliminary analysis of ongoing trials in the DA-TECA Study 295
- Treatment of breast carcinoma with aminoglutethimide 421

Tumours (specific sites)*Digestive system*

- Role of radiation therapy in carcinoma of the hypopharynx 21
- Tumor markers in colorectal carcinoma—An evaluation of carcinoembryonic antigen, tissue polypeptide antigen, placental alkaline phosphatase and pseudouridine 27
- Gastric lymphomas—Clinical features, treatment and prognosis 193
- Oral carcinoma of the upper jaw—Results of radiation treatment 331

Respiratory system

- Early glottic carcinoma (T1N0)—Results of irradiation with or without endoscopic microsurgery . . 15
- Small cell anaplastic carcinoma of the lung—The Aarhus experience 1976–1981 153
- Malignant tumours of the paranasal sinuses and nasal cavity—A series of 180 patients 181
- Carcinoma of the larynx—Series of 410 patients treated primarily with ^{60}Co irradiation 321
- Two different primary lung malignancies after a successful kidney transplantation 411
- Results of radiation therapy in carcinoma of the larynx 415

Skin

- Occurrence of other malignancies in patients treated for basal cell carcinoma of the skin—A cohort study 227
- Radiation therapy for brain metastases from malignant melanoma 231
- Preoperative irradiation of malignant melanoma—A multifactorial statistical analysis of survival . . . 315
- Malignant pilomatrixoma—Report of a case 429

Breast

- Ploidy level of human breast carcinoma—Relation to histopathologic features and hormone receptor content 103
- Oestrogen receptor assay—False positive analysis? . 109
- Intercurrent mortality of breast carcinoma patients—An investigation of 3857 cases from the Swedish Cancer Register 337
- Treatment of breast carcinoma with aminoglutethimide 421

Kidney and urinary tract

- Radiation management of squamous cell carcinoma of the bladder 37
- Occupational exposures as risk indicator of male bladder carcinoma in a predominantly rural area . 147
- Impact of CT-based treatment planning on radiation therapy of carcinoma of the bladder 199

Female genital organs

- Intestinal damage and malabsorption after treatment for cervical carcinoma 33
- Hydatidiform mole in a Danish material—Morphology and cytogenetics—A preliminary communication 97
- Treatment of recurrent squamous cell carcinoma of the vulva 345
- Radiation therapy and surgery in the treatment of regional lymph nodes in squamous cell carcinoma of the vulva 433
- Stage I squamous cell carcinoma of the vulva . . . 443
- Radium needles implant in the treatment of extensive vaginal involvement from cervical carcinoma—A dosimetry appraisal 449
- Relationship between lymph node metastases and prognosis in patients irradiated for carcinoma of the uterine cervix 455
- The role of radiation therapy in the treatment of adenocarcinoma of the corpus uteri stage I—A ten year experience (1970–1979) 461

Male genital organs

- Carcinoma of the prostate limited to the pelvis—Treatment with curative radiation therapy 205
- The Danish Testicular Carcinoma Study (DATECA) 237
- Testicular germ cell tumours in Denmark 1976–1980—Pathology of 1058 consecutive cases . 239
- Testicular carcinoma in Denmark 1976–1980—Stage and selected clinical parameters at presentation . 249
- Non-seminomatous testicular germ cell tumours in Denmark 1976–1980—Results of treatment 255
- Testicular seminoma in Denmark 1976–1980—Results of treatment 263
- Prognostic factors in testicular germ cell tumours—Experience from 1058 consecutive cases 271
- Tumour markers in testicular germ cell tumours—Five-year experience from the DATECA Study 1976–1980 287
- Non-seminomatous testicular germ cell tumours—Preliminary analysis of ongoing trials in the DATECA Study 295

Endocrine organs

- Kinetics of ^{201}Tl uptake in adenomas and well-differentiated carcinomas of the thyroid—A double isotope investigation with $^{99}\text{Tc}^{\text{m}}$ and ^{201}Tl 55

Nervous system and sense-organs

- Low grade astrocytoma in children treated by surgery and radiation therapy 1
- Importance of age in management of retinoblastoma of the first eye 177
- Radiation therapy for brain metastases from malignant melanoma 231

- Haemopoietic, lymphatic and reticuloendothelial systems*
- Delayed effect of radiation therapy with or without chemotherapy on ovarian function in women with Hodgkin's disease 43
- Experiences from the National Danish Hodgkin's Study Group (LYGRA) with respect to diagnosis, classification and treatment of Hodgkin's disease 163
- Gastric lymphomas—Clinical features, treatment and prognosis 193
- Respiratory function tests after mantle irradiation in patients with Hodgkin's disease 401
- Synchronous Hodgkin's disease in monozygotic twins 425
- Bone and soft tissue*
- Specimen radiography of bone tumours 119
- Presenting symptoms and treatment delay in osteosarcoma and Ewing's sarcoma 159
- Soft tissue sarcomas in adults—Surgical, radiologic and cytotoxic treatment 169
- Radiation physics**
- Dosimetry*
- Dosimetric precision requirements in radiation therapy 379
- Charge build-up effects in insulating phantom materials 393
- Radiation damage induced dose rate non-linearity in an n-type silicon detector 465
- Variance measurements with two semiconductor dose detectors 471
- Wedge filters for megavoltage roentgen ray beams 477
- Radiation protection*
- Statement from the 1983 meeting of the International Commission on Radiological Protection 489
- Miscellaneous**
- Radiumstationen in Aarhus from 1962 to 1984 85
- Book reviews**
- Treatment of cancer 79
- Isodose atlas for use in radiotherapy 79
- Management of complications in gynecologic oncology 79
- Radiation therapy planning 80
- Advances in radiation therapy treatment planning 495
- Assessment of tumour response 495
- Progress in medical radiation physics 495
- Dosimétrie en curiethérapie 496
